

SRUTHY M.S.

FINANCIAL ANALYST

Location: India | **Phone:** +91 XXXXX XXXXX | **Email:** sruthy.ms@email.com | **LinkedIn:** linkedin.com/in/sruthyms

PROFESSIONAL SUMMARY

Detail-oriented Financial Analyst with 1 year of hands-on experience in financial modeling, budget tracking, and variance analysis. Skilled in evaluating complex financial data, optimizing tech operating expenses (OpEx), and forecasting revenues for software, cloud infrastructure, and R&D initiatives. Proficient in Advanced Excel, ERP systems, and database management, with a proven track record of delivering data-driven insights to guide technology executives in strategic decision-making.

CORE COMPETENCIES

FP&A & Budgeting:	Financial Modeling, Budget Tracking & Forecasting, Variance Analysis, Profitability Analysis
Tech Finance & Cloud:	SaaS & Cloud Infrastructure Cost Analysis, R&D Expense Optimization, Software License Revenue Forecasting
Technical & Software:	Advanced Excel (VLOOKUP, INDEX/MATCH, Pivot Tables, Macros/VBA), ERP Systems (SAP/Oracle), Database Systems (SQL), Power BI

PROFESSIONAL EXPERIENCE

Financial Analyst — TechSolutions Pvt. Ltd. Aug 2025 – Present

- Budget Tracking & Cost Optimization:** Tracked, monitored, and managed annual operating budgets for software development, cloud infrastructure (AWS/Azure), and tech R&D projects, driving operational efficiencies that reduced OpEx by 8%.
- Financial Modeling & Revenue Forecasting:** Developed and maintained dynamic, multi-year revenue forecast models for recurring cloud service subscriptions and software licensing agreements.
- Project Profitability Analysis:** Evaluated project-level financial metrics (ROI, NPV, IRR) across product lines to enable tech leadership to prioritize capital expenditure and optimize resource allocation.
- Executive Reporting & Dashboards:** Prepared monthly variance reports and financial dashboards for senior tech executives, translating complex metrics into actionable strategic insights.
- ERP & Data Management:** Extracted, structured, and validated large-scale datasets from ERP and database systems to ensure robust data integrity and streamline month-end financial reporting processes.
